PROFILE

Dynamic Full Stack Developer with strong proficiency in the MERN stack, experienced in building scalable, responsive, and high-performance web applications. Currently working as a Software Developer Intern at Sandspace Technology Pvt Ltd, Vijayawada, contributing to the TEGA training and education platform. Skilled in writing clean, maintainable code and performing thorough testing. Adept at collaborating within Agile teams to deliver features on schedule and create solutions that enhance user experience.

TECHNICAL SKILLS

Frontend: HTML, CSS, Bootstrap, React.js, JavaScript (ES6+), JSX
Backend: Node.js, Express.js, Python
Database: MongoDB, SQL
Tools & Others: Git, GitHub, Postman, Vercel, JWT, REST APIs

EXPERIENCE

Software Developer Intern
Sandspace Technology Pvt Ltd — Vijayawada | Aug 2025 – Present

- Developed and maintained TEGA, a real-time training and education platform supporting interactive learning modules and guided assessments.
- Built the frontend architecture using React.js and Bootstrap, implementing dynamic routing and a modular component structure for improved scalability and maintainability.
- Integrated Monaco Editor with Judge0 APIs to enable secure, multi-language code execution with real-time output and feedback.
- Engineered RESTful APIs using Node.js and Express.js to manage course content, code submissions, evaluation workflows, and learner progress.
- Designed role-based dashboards (Admin, Mentor, Student) with tailored interfaces to streamline learning, monitoring, and assessment workflows.
- Implemented secure authentication, progress tracking mechanisms, and analytics dashboards to enhance user experience and platform reliability.
- Collaborated with cross-functional teams following Agile methodologies, using Git for version control and efficient feature delivery.
- Identified workflow improvements and contributed to process optimization through consistent testing, debugging, and problem-solving.

PROJECTS

TEGA – Full-Stack Training and Education Platform (https://tegaedu.com/)
Technologies: React.js, Node.js, Express.js, MongoDB, Monaco Editor, Judge0 API

- Designed and developed a full-scale Learning Management System (LMS) featuring real-time coding environments, personalized learning paths, and detailed student progress analytics.
- Integrated Monaco Editor with Judge0 API to enable secure, multi-language code execution with instant output and real-time feedback.
- Built interactive course modules, quizzes, and assignment submission workflows to support structured, guided learning.
- Implemented JWT-based authentication and role-based access control to secure user sessions and resource access.

NXT Trendz – E-Commerce Website
Technologies: React.js, JavaScript, CSS, JWT

- Developed a secure e-commerce platform featuring JWT authentication, protected routes, and controlled user access.
- Built reusable React components for product listings, user login, and checkout workflows with seamless API integration.

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science & Engineering
Kakinada Institute of Engineering and Technology, Kakinada | 2021 - 2024 | CGPA: 7.5

Diploma in Mechanical Engineering
Government Polytechnic DRRM, Andhra Pradesh | 2018 - 2021 | Percentage: 80.03%

Secondary School Education (SSC)
Modern High School, Andhra Pradesh | 2017 - 2018 | CGPA: 9.8

CERTIFICATIONS

Python Programming — EDYST

• Front End Development — IBM SkillsBuild

• SQL Certificate

• React.js Certificate
